LED BY MR. AGUINALDO

Otis Thinks That Insurgents Fought Directly Under Him.

DEFEAT AT SAN FERNANDO.

Notwithstanding the Report That the Filipino General Commanded in Person, the Americans Repulsed Them Easily.

Washington, June 16.—The following cablegram has been received from General Otis at Manila: "Northern insurgents concentrated large force near San Fernando and attacked McArthur's troops; enemy quickly repulsed and driven, leaving over 50 dead on the field and a large number wounded; enemy in retreat. Our casualties, 14 wounded, mostly very slight. Preparations of this attack in progress several days; believed to be under special supervision of Aguinaldo."

GENERAL KING'S REPORT.

History of the Early Battles With the Filipinos.

Washington, June 16.—The report of Brigadier General Charles King, commanding the first brigade, first division, during the early fighting at Manila, was made public at the war department. This brigade, composed of the First California, First Washington and First Idaho, saw some very hard fighting during the first days of the attack by the insurgents.

It was while executing an order of General King that Major McConville fell, leading his men of the Idaho regiment. General King calls attention to the fact that the losses of his brigade were greater than those of any other brigade in the corps. He also says that the damage inflicted on the enemy was very great, his men having buried 153 of the Filipinos. He adds: "I beg leave to call attention to the fact that this is the only exclusively volunteer brigade in the corps and that it fought with all the steadiness, dash and discipline of their comrades, the regulars."

Major McConville died proudly leading his men in the dash on a dangerous line. Major Welsenburger, First Washington, was an example of soldierly bearing throughout. Captain Fortso was in command in Pandacan island, constantly exposed, and he and Captain Whittington, First Idaho, won my admiration for their daring assault on a fiercely defended position, the redoubt across the Concordia. Captain Otis, First Washington, with his cheek and ear scored by a Mauser, led his company from start to finish. His loss of 25 killed and wounded in one company shows what they had to fight through. Lieutenants Erwin and Luhn, First Washington, the former severely wounded, were notably cool. Captain Dyer and Lieutenant Hawthorne, of the artillery, won the plaudits of the men for consummate skill and coolness and for the coolness of others in the line whom I did not see. I must refer you to their reports as that bearing on their officers and men.

Every man on my staff from the senior in rank, brigadier surgeon, Major Shields, down to our mounted orderlies, won my thanks and admiration.

HEALTH OF SOLDIERS

In the Philippines Is Said to Be Exceptionally Good.

Washington, June 16.—The statements to the effect that men around Manila are dying like flies and that the war department has been compelled to suppress the regulation health reports which it was formerly customary to make public, turn out to be false, but serving the purpose of bringing out the fact that the health conditions of the American army under General Otis are not only astonishingly excellent but have probably never been equalled in an army in tropical countries.

Compared with that of last summer in Cuba, the comparative immunity from death or serious illness of the American troops fighting outside of Manila seems little short of miraculous. From the landing of General Anderson's first military expedition near Cavite on June 30 last year, up to the last weekly report from General Otis dated June 6, there have been only 364 deaths from disease, although his total force has been 40,000 men. In the same period 69 men have died from wounds.

In view of the notorious insalubrity of Manila and its environs, these figures are almost incredible. They challenge contrast with the best English experience in Egypt or India and they surpass even the excellent conditions that exist in Cuba where there is no fighting and the men are not exposed to the elements, but have comfortable garrisons. Men drowned or who died from injuries received otherwise than

in battle are counted in the total of 364. The total is interesting as compared with that of the men killed outright in action with the Filipinos from February 4 to June 6, covering the period of active hostilities. In those four months with an average of 7,000 men engaged the killed were 226.

This great disparity demonstrates what improvement has resulted from the experience of the Santiago campaign when 2,000 men died from disease and only 260 were killed. In fact, the health question in the Philippines has apparently lost its novelty and no question having been raised about it from this side of the ocean, no recent cable reports from General Otis contain any allusion to it.

ZANESVILLE WINS.

Time and Place of Holding Democratic State Convention.

Columbus, O., June 16.—The Democratic state central committee met at the Great Southern hotel and decided upon Zanesville as the place for holding the state convention and fixed the date for August 1 and 2.

The vote stood Zanesville 11, Columbus 9, Sandusky 1, on the fourth ballot. The committee chose the following officers: William T. Mooney, St. Mary's, temporary chairman; Thomas J. Cogan, Cincinnati, secretary; W. H. McCabe, Coshocton, sergeant-at-arms.

It was decided that the basis of representation for delegates should be based on the vote for Chapman.

Cigars In His Wooden Leg.

Columbus, O., June 16.—Through a tip given by an "honest" convict, the prison authorities came into possession of information which led to the punishment of 15 prisoners. They had all been engaged in the business of stealing cigars. One of the neatest tricks turned by the cigar thieves was that which must be accredited against John Thomas. Thomas "is an old soldier and he has a wooden leg." John worked that peg for all that it was worth. He carved the inside out of it, and when he was captured the wooden leg was taken from him and examined. Inside it there were just 40 cigars. John will pay for his smokers.

New Incorporations.

Columbus, O., June 16.—The G. and B. Gerdes company, Cincinnati, capital stock \$250,000; the Madison Avenue Fishing, Social and Singing club, Cincinnati; the Patterson Foundry and Machine company, East Liverpool, capital stock \$100,000; the Forest City Contracting company, Cleveland, capital stock \$24,000; the Reeves Military band, Canal Dover; the Improved Order of Elks of the World, Cincinnati.

Jamestown's New Postmaster.

Jamestown, O., June 16.—John R. Crain was appointed postmaster here by the president.

Report on Cyclone.

Milwaukee, Wis., June 16.—A message from Surgeon C. F. King, who was sent by Governor Scofield to examine into the conditions in the track of the storm of June 12, of New Richmond, reports three persons killed and a large number injured. Surgeon King's message is dated at Clayton, Polk county, Wis., and reads: "Thirty-four families, consisting of over 100 persons, in the vicinity of Richardson, and six families, consisting of 41 persons, in the vicinity of Clayton, need immediate relief."

Ignored the Bill.

Harrisburg, Pa., June 16.—The grand jury of Dauphin county ignored the bill of indictment against Ex-Senator John J. Coyle and Michael J. Costello, of Philadelphia, charging them with corruptly soliciting Representative John Engler, of Lycoming county, to vote to reconsider the McCarrell jury bill in the house of representatives last February.

Another Whisky Combine.

Louisville, Ky., June 16.—For some days it has been reported among whisky men that a scheme was incubating to consolidate all the distilleries in Kentucky not owned by the Kentucky Distilleries and Warehouse company. The presence in the city of Joseph Wolff, the Chicago whisky dealer, probably caused it.

Serious Troubles.

Shanghai, June 16.—A dispatch from Foo Chow says serious anti-foreign troubles have occurred at Kieng Ning-Fu, province of Nogan-Hwei. The churches and mission have been burned, but the missionaries escaped to Ning-Wha on their way to Foo Chow.

Report Denied.

London, June 16.—The Filipino junta here says there is no truth in the report circulated here and cabled to the United States that Aguinaldo has been assassinated.

Madrid, June 16.—The parliamentary difficulties have momentarily subsided. In the chamber the minister of finance, Senor Villaverde, will introduce the budget after the close of the debate so as to allow operators time to weigh it and thus possibly avert starting a panic.

ROASTED BY PINGREE

Michigan Legislature Given a Parting Shot by the Governor.

TWO MEASURES ARE VETOED

Why the Chief Executive Withheld His Signature From the Beet Sugar Bounty Bill and Appropriation For Buffalo Exposition.

Lansing, Mich., June 16.—Governor Pingree marked the closing day of the legislature by sending in veto messages which hotly criticised the legislature for alleged failure to carry out the people's wishes.

The governor vetoed the amended beet sugar bounty bill and also a bill appropriating \$40,000 for state building and exhibit at the Pan-American exposition at Buffalo.

The beet sugar bill as originally passed had been recalled from the governor's office, the governor having recommended that the amount paid any sugar factory be limited to \$25,000 annually. No limit was inserted, however, in the amended bill, which reduced the manufacturers' bounty from a cent to half a cent a pound.

The veto message said in part: "This legislature has passed no laws to equalize the burden of taxation and make corporate and other property pay its share of taxes. It has failed utterly to carry out the wishes of the people in this respect. The tax dodger has either controlled or obstructed legislation. His interests have been carefully protected. The effort seems to have been made to appropriate as much money as possible, and to stifle all measures to make the tax dodger bear his and its share of the increased expense."

"The Republican party in convention, by its platform unanimously pledged, and the people endorsed reforms in taxation, not one of which has been fulfilled. Such violations of faith are sometimes dangerous to parties as to individuals."

As to the Buffalo appropriation the governor said: "If this Republican legislature cannot afford to make the pay of Michigan volunteers in the Spanish-American war at least \$1 per day, it certainly should not tax the soldiers' modest home for the purpose of raising a fund to enable the tax dodgers to exhibit their wares in a neighboring state."

KIDNAPPER BARROW

Is Given Nearly Fifteen Years For Stealing Marion Clark.

New York, June 16.—George Beauregard Barrow, the principal in the kidnapping of Marion Clark, the infant daughter of Arthur Clark, of this city, was sentenced to 14 years and 10 months imprisonment.

The trial, which was begun on Wednesday, when Bella Anderson or Carrie Jones, the tool of Barrow, and his wife, gave her evidence for the state, was concluded with testimony intended to establish the previous good character of the defendant.

The summing up by counsel was very brief and the case was given to the jury with a few words of instruction from the bench. The jury, after being out about 35 minutes, rendered a verdict of guilty and sentence was passed as above stated. Carrie Jones, who pleaded guilty, was sentenced to four years' imprisonment. The trial of Mrs. Barrow as her husband's accomplice will follow.

Different Views.

New York, June 16.—Opinions widely different are being expressed in this city in regard to the statement of Henry O. Havemeyer, president of the American Sugar Refining company before the industrial commission at Washington recently. Senator Thomas C. Platt said: "Mr. Havemeyer expresses the views of a Democrat and his statement was in the interest of the Democratic party." Edward M. Shepard, a leading attorney for large corporations, said: "I thoroughly agree with the proposition that the serious evils of so-called trusts and monopolies are evils arising from the tariff system. This general doctrine was very well put by Augustus Van Wyck in his speech at the Democratic dinner in April. Whatever excuse there may have been in the past for the maintenance of 'infant industries' it is certain the United States has grown far beyond the usefulness of there ever were any usefulness of the extreme protective system under which we live."

Broke His Leg.

New Orleans, June 16.—Monor C. Keith, of Boston, president of the Boston Fruit company, and the head of the banana trust, is at Puerto Cortez, suffering from the results of a severe accident and is in a dangerous condition. The news reached this city in a private telegram to the effect that Mr. Keith had broken his right leg.

OFFICIAL STATEMENT

Will Soon Be Issued by an Attorney of Standard Oil Company.

New York, June 16.—Gossip of the past two years in regard to the affairs of the Standard Oil company is to be disposed of by an official statement to be issued soon by Samuel T. Dodd, attorney for the company.

Wall street has always had several stories about the adjustment of affairs of the Standard Oil company. This week there have been a dozen rumors on the subject. One was that the company was to be dissolved, another that a reorganization which could consolidate all interests with a capitalization of \$500,000,000 had been decided on and that new stock on the basis of five shares for one would be issued.

A story that was not regarded without foundation by many who are evidently well informed about Standard Oil affairs was that the company would liquidate and that a new company would be formed with a capital of from \$100,000,000 to \$125,000,000. The scheme outlined comprehended the exchange of the outstanding certificates dollar for dollar, the holding of \$10,000,000 to \$15,000,000 of treasury stock and a cash distribution among the holders of certificates.

The new company under this plan would be a New Jersey corporation. It was assumed that the cancellation of the original certificates of the trust which originally amounted to \$7,250,000 had progressed to a point where a reorganization of the company would present little difficulty and that the decision in this regard was reached at Bayonne, N. J., at a recent meeting of the Standard Oil company of New Jersey.

Capital Stock Increased.

Trenton, N. J., June 16.—The Standard Oil company filed a certificate with the secretary of state increasing its capital stock from \$10,000,000 to \$110,000,000. Of the latter amount \$10,000,000 is to be preferred stock, paying 1 1/2 per cent. quarterly dividends. The certificate is signed by Henry M. Flagler, president, and L. D. Clarke, secretary.

A New Treaty.

Washington, June 16.—A new treaty between the United States and Great Britain, covering reciprocity with the British West Indian colony of Barbados will be signed at the state department. A conference was held at noon to perfect certain details and the signing of the instrument is to take place later in the day. This is the first reciprocity treaty under the reciprocity clause of the Dingley tariff as the previous agreements have been under a section allowing "reciprocity arrangements," by proclamation and without the formality of a treaty. It is the first of the series of treaties which the British West Indian colonies, Jamaica, Guiana and Bermuda, are seeking.

To Attend Bland's Funeral.

St. Louis, June 16.—Colonel William J. Bryan passed through St. Louis on his way to Lebanon, Mo., to attend the funeral of Richard P. Bland. Noah Hawk, of Willow Springs, deputy sergeant-at-arms for the house of representatives at Washington has wired that he will attend the funeral and that he has selected Congressman Joy, DeArmond, Lloyd and Clark, of Mo.; G. W. Farris, of Indiana, Bailey and Lanham, of Texas, Pierce, of Tennessee, and Henderson, of Iowa, as a committee to represent that body.

Attorney Weeks Overruled.

New York, June 16.—The order on Messrs. Weeks and Battele, counsel for Roland B. Molineux, to show cause why their client's case should not be submitted to the grand jury, came up before Justice Fursman in the criminal term of the supreme court. M. Weeks contended that Justice Fursman had no jurisdiction, but he was overruled. The arguments then went over until next Monday to give counsel for Molineux time to prepare affidavits and necessary papers.

Yellow Fever Case.

Havana, June 16.—A marine who was on duty at the Machina wharf developed yellow fever on Thursday and died here. There are no new cases. The marines sleep in a small barracks on the wharf where they breathe the foul air of the harbor. The seaman from Cartagena, whom Dr. Brunner said was not suffering from yellow fever, is now entirely well, but is still quarantined. There are no other cases on board his vessel.

New Orleans, June 16.—Mr. J. W. Fitzsimmons, a passenger on the Jari, which arrived from Bluefield, reports all political affairs in Bluefield extremely quiet. The American gunboat Vixen has crossed the bar and has taken up a position just over the entrance of the bay. From this position it commands the bay, the town and the mouth of the Bluefields river, and has the Nicaraguan custom house and the army post on the bluff at the entrance of the harbor at its mercy.

SCORES OF CONFLICTS

The Street Car Strike at Cleveland Abounds In Violence.

POLICE KEPT ON THE GO.

During the Noon Hour Crowds Congregate and Blockade the Tracks. Many Shop Girls Take Part In the Melee.

Cleveland, June 16.—Cars were started in the morning on all the lines Euclid avenue, Wade park, Cedar and Wilson avenues. There was no rioting, but at various points obstructions were found on the tracks. These were readily removed. There are no crowds in the streets. It now seems possible that a settlement of the strike may be effected.

It was denied that a committee of strikers had held a conference with President Everett, of the company, but the report is now known to be true. The company was composed of former employees was entirely unofficial and its action is disavowed by the union, but it is admitted that a return of the men was discussed. The question has, it is said, narrowed down to the disposal of the non-union men employed by the company. The company claims that it is bound to retain these men in its service. It is reported that the union has so modified its demands for recognition as to allow of its fulfillment without the sacrifice of any rights of the company.

All through the forenoon the streets were quiet. At the noon hour, when the big factories let out their men trouble was experienced all over the city. The police had been drawn into the outskirts of the town and the rioters, seeing this, gathered in force in the down-town streets. At the corner of Wood and St. Clair streets several hundred factory girls bombarded passing cars with bottles, stones and other missiles from the shop windows.

A crowd of 2,000 people crowded the street at St. Clair and Banks and stoned them at their will. Only two arrests were made.

On St. Clair street between Bank and Water two cars were attacked with missiles from surrounding buildings. The police dispersed the mobs.

Shortly after noon two large stones thrown from a room crashed down through a Wade Park car on Perkins avenue narrowly missing the motor-man. A crowd of 1,000 people here was soon dispersed, but another was immediately formed at Case and Perkins avenues. The track was blocked here and a crowd largely composed of women and children vigorously stoned a passing car.

At Scranton and Clark avenues, a brick thrown from the crowd injured a policeman and a sharp melee followed. At Holmden avenue a crowd of 2,000 people was encouraged. A motor-man was hit with a paving stone and volley after volley of stones and eggs were sent into the car.

Police reinforcements immediately arrived and drove the mob back. Two strikers, John Murphy and J. J. Crax, were arrested. The first attempt to open a south side line failed, the strikers being too strong and no adequate police force being available.

To Adjust Rates.

St. Louis, Mo., June 16.—Representatives of the St. Louis and Tennessee River Packet company, covering points from St. Louis to Florence, Ala., and from St. Louis to Memphis, and the various lines with which it connects, have held a meeting for the purpose of adjusting rates. The local passenger tariff for points along the river have been reduced about 20 per cent. and the "fighting rates" on freight that had prevailed for a year or more were advanced to the rates formerly prevailing in the territory.

Terrible Explosion In a Mine.

Halifax, N. S., June 16.—A special from Glace Bay, C. B., one mile from the Caledonia mine, of the collier of the Dominion Coal company, says an explosion, accompanied by terrible loss of life, occurred at sunrise. More than 40 men were in the pit when the explosion occurred and it is believed that nearly all of them perished. Twelve lifeless bodies have already been recovered. The explosion was caused by gas which had accumulated in the old workings.

Refused to Confer.

Denver, Col., June 16.—J. B. Grant, chairman of the operating committee of the American and Refining company has refused a conquest of the executive board of the state federation of labor for a conference with a view to ending the strike at the trusts smelters. The executive board will now endeavor to bring about a conference between the trust's representatives and the smelter employees.

INDICATIONS.—Increasing cloudiness to-night and Sunday.

"The customs tariff is the mother of all trusts," says Mr. Havemeyer of the sugar trust. Down with the tariff.

At the rate General Taylor has been carrying the Republican county conventions, Captain Sam Stone and Judge Pratt will not make much of a showing.

EDITOR KOHLBATT, of Chicago, is getting out of his bailiwick when he demands of Ohio Republicans Senator Foraker's retirement. And it's a demand that will likely be resented strongly by the Buckeyes.

Over in Ohio, Boss Hanna's favorite, Mr. Nash, is the Republican nominee for Governor and Boss Geo. B. Cox's favorite is Mr. Nash's running mate. In Buckeye Republican circles, Boss Hanna and Boss Cox run the whole machine, and the people are not in it.

The disgraceful proceedings at the so-called Democratic primary election in Louisville this week has resulted in several big damage suits against the Mayor and Chief of Police of that city. If the courts could just banish the whole gang from Kentucky, and would do so, it would be a good thing for the State.

The Washington correspondent of the Commercial Tribune writes that out of over 50,000 soldiers sent to the Philippines "General Otis has not more than 20,000 to 21,000 effective men." If this is true, the Administration will soon have to call out the volunteers to help "squell" the Filipinos in their struggle for liberty.

The information from Washington City is that an effort is being made to get rid of Judge Thomas as Solicitor of Internal Revenue. Judge Pugh is there trying to save his father-in-law, and Senator Deboe has been called to the rescue. It would break the old man's heart to lose out now, but he has a strong pull on the President and if he does have to step down, he will no doubt be given something just as good.

From information at hand the committee appointed by the Board of Trade on the turnpike question seem to have misunderstood, or disregarded, the purpose of their appointment. The motion was that they endeavor to secure, if possible, a proposition from the companies that would be satisfactory to all concerned. We are told they have secured propositions but we are also informed that the terms are not as favorable as the Fiscal Court could have secured some time ago. If this is true, we fear a settlement of the question is not in sight. In order to reach a settlement all sides will have to make some concessions.

LAWLESSNESS RAMPANT.

Appalling Condition of Affairs Down in the County of Knott.

FRANKFORT, Ky., June 15.—State Inspector Lester made a report to the Governor to-day as to the condition of affairs in Knott County, which he investigated last week.

According to the report there is a band of 300 or 400 White Cappers or regulators in that county, who commit all sorts of outrages, without being brought to justice. The alleged perpetrators are arrested, of course, and tried, but such is the power of the gang that no one is ever convicted, but a big list of witness claims are filed which the State has to pay.

The amount of these claims have grown so big recently, and the number of convictions appeared to be so small, that it looked suspicious, and Lester was sent to investigate. He says the state of lawlessness in that county is appalling and the courts appear to be powerless to check it. He thinks the Legislature should enact a law empowering the Circuit Judge to send into another county and get a jury to try the offenders.

W. B. PELL was convicted in the Circuit Court Friday of forgery and given two years in the penitentiary.

State Democratic Convention.

On above account the L. and N. will sell round trip tickets to Louisville for morning trains of June 20th and 21st at \$5.80. Return limit June 24th.

ITS THIRD ANNIVERSARY

Will Be Celebrated To-morrow by the Young Men's Christian Association of This City—The Program.

Sunday, June 18th, the third anniversary of the Young Men's Christian Association of this city will be observed with a mass meeting at the First Presbyterian Church at 7:30 p. m. All the churches of the city will unite in this service, making it a grand union meeting of the Christian people of the city.

Col. John A. Johnson, of Covington, a prominent layman of the State and a very able speaker, will be the speaker of the occasion, giving an address on "The Watchword for the Future."

A report of year's work will be read, giving especially the progress made during past seven and half months.

There will be good music. "Gospel Hymns" will be used and every one is requested to bring their book with them that they may join in the singing.

There will be a meeting for men only at the association rooms at 4 o'clock Sunday afternoon. Rev. Howard T. Cree will talk to men on the subject "A Strong Man." This will be an address that all men, especially young men, ought to hear. Those who have been privileged to hear Rev. Cree in his talks to men know that he is a thoroughly earnest speaker and that he gives a straight-from-the-shoulder talk. Turn out and hear him, and you will not regret it. The rooms will be pleasant.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from frightful death. In telling of it he says: "I was taken with typhoid fever that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all throat and lung trouble. Regular sizes 50 cents and \$1. Trial bottles free at J. J. Wood & Son's drug store every bottle guaranteed.

A Reception Wednesday Evening and a Euchre Friday Morning in Honor of Miss Marshall of Virginia.

Mrs. James A. Johnson entertained with a reception Wednesday evening in honor of her guest, Miss Emily Wellford Marshall of Virginia. Mrs. Johnson was assisted in receiving by Mrs. William D. Cochran, Miss Wall, Miss Brooks and Miss Harriet Johnson. The young ladies who presided in the dining room were Misses Bessie Coons, Phoebe Waller, Isabelle Barkley and Nellie Owens.

The house was beautifully decorated, the mantel pieces being built high with daisies and ferns, the color scheme throughout, both in flowers and lights, being pink and white. The porch was gay in lanterns, and here Miss Helen Barkley presided over the punch bowl.

The music by Prof. Boulette and Miss Berry was most delightful, giving just that gay tone to things that an evening reception demands.

Among the many entertainments given to Miss Marshall, none have been more charming than the euchre given by Miss Wall Friday morning at her home on Front street. The house was artistically decorated in great stalks of hollyhocks and ox-eyed daisies.

Mrs. Wall assisted by her daughter, Miss Marshall and Miss Harriet Johnson received their guests at 10 o'clock, when the score cards were distributed and the game commenced. The prizes were won by Mrs. P. G. Smoot and Miss Millward, the first being an Austrian plaque, the second a deck of cards, each containing a scene from "Ole Virginia."

An elaborate collation was served at noon, completing the morning entertainment.

MASS MEETING.

Citizens of Mason County Called to Meet at Court House Next Monday

To Consider the Turnpike Question—A Law and Order League May Be Organized.

There will be a mass meeting at the court house in Maysville on Monday afternoon, June 19th, at 1:30 o'clock to consider the "turnpike question" and "guard law" in all their aspects. Let all citizens who value the good name of Mason County and resent the aspersions being cast upon her, be present, and bring with them those who want to lighten the burden of taxation, and to see a valuable return for all public expenditures.

The citizens of Mason County have always stood for law and order, and do not now propose that a few reckless persons shall boldly violate the law and involve the county in expense, and yet escape punishment. If this can not be stopped without the organization of a law and order league, let such an organization be made at once. The people mean business, and are determined to suppress lawlessness whether in high places or low. BY ORDER OF COMMITTEE.

Ghostly would frighten many people who are not afraid of germs. Yet the germ is a real danger. If this microscopic animalism could be magnified to a size in proportion to its deadliness it would show like a giant python, or fire breathing dragon. The one fact to remember is that the germ is powerless to harm the body when the blood is pure. It is far easier to keep the germ out than to drive it out after it obtains a hold in the system. Dr. Pierce's Golden Medical Discovery is the most powerful and perfect of blood purifying medicines. It increases the quantity as well as the quality of the blood, and enables the body to resist disease, or to throw it off if disease has obtained a footing in some weak organ.

Wherever the digestion is impaired, the nutrition of the body is diminished, for the blood is made from the food which is eaten, and ball digested food cannot supply the body with blood in quantity and quality adequate to its needs. For this condition there is no remedy equal to "Golden Medical Discovery." It cures ninety-eight out of every hundred persons who give it a fair trial. When there is constipation Dr. Pierce's Pleasant Pellets will promptly relieve and permanently cure.

GROWING FIERCER.

James Howard, One of the Principals in Kentucky Feud, Killed.

London, Ky., June 16.—News is brought here to the effect that James Howard was killed near Manchester. Howard belonged to the White and Howard faction of the Baker-Howard feud.

The story is that he was standing in front of the court house, very near the spot where Tom Baker was shot down last week, and was turning from a party of friends to enter the court house as the shot was fired from a near by window and he fell. An examination showed the wound to be mortal. Sheriff White and deputies made a search, but no trace of the assassin could be found. Howard is accused of having killed George Baker, the county attorney, in April 1898. More than ever now a war of extermination is anticipated.
